2	Criteria-based assessment technology and methods of teaching literary reading	4	Prdagogy	Education pedagogical practice " Testing lessons ", Internship pedagogical practice	Aims of study of discipline: to Acquaint the students with specially designed for children's literature. Short maintenance of discipline: The study of works intended for children engaged in artistic language tasks of upbringing and education of children. Expected result Know: how to work with literature in primary school To be able: to Orient the choice of the material being studied, analyze works of art Skills: the organization of reading lessons in elementary school. Competence: Special: labor function 3.methodical
2	Children's literature	4	Pedagogy	Education pedagogical practice " Testing lessons ", Internship pedagogical practice	Aims of study of discipline: Get acquainted with a specially designed for children literature Short maintenance of discipline: The study of works intended for children's reading is carrying out the artistic language of the task of raising and educating children.. Expected result Know: Works of children's foreign, Russian and Kazakh literature To be able: Correctly select the product of children's literature in practice Skills: Correctly select the product of children's literature in practice. Competence: Special: labor function 3.methodical
3	The technology of criteria-based assessment and methods of teaching knowledge of the world	5	Pedagogy	Education pedagogical practice " Testing lessons ", Internship pedagogical practice	Aims of study of discipline: to provide a holistic view of the peculiarities of teaching knowledge of the world in elementary school. Short maintenance of discipline: Methods of teaching knowledge of the world examines the content, peculiarities of the course of cognition of the world in elementary school. Expected result To know: theoretical aspects of the course knowledge of the world. To be able to: apply obtained knowledge in practice. Skills: design lessons of world knowledge in elementary school. Competence: Special: labor function 3.methodical
3	Methods of studying the knowledge of world	5	Pedagogy	Internship pedagogical practice	Aims of study of discipline: Give a holistic view of the peculiarities of the teaching of natural science. Short maintenance of discipline: The subject, tasks, research methods and methodological basis of zoology with the basics of ecology. Anatomy, morphology, physiology, systematics and ecology of

					<p>unicellular, invertebrate and vertebrate animals. The subject, tasks, research methods and methodological basis of geography and local history. General physico-geographical patterns of development and structure of the Earth. Study of the terrain, nature, history, population, economy, culture, art and other aspects of the life of the peoples of the Republic of Kazakhstan.</p> <p>Expected result To know: theoretical aspects of the course knowledge of the world. To be able to: apply obtained knowledge in practice. Skills: design lessons of world knowledge in elementary school. Competence: Special: labor function 3.methodical</p>
4	Psychological and pedagogical bases of teaching and upbringing of primary school children	5	Working with gifted children	Internship pedagogical practice	<p>Aims of study of discipline: to acquaint students with the peculiarities of preparing elementary schoolchildren for educational activities.</p> <p>Short maintenance of discipline: This discipline studies the psychological and pedagogical characteristics of readiness for teaching younger students in school; development of cognitive processes and activities of personality formation, social qualities of a person, development of motivation, achievements of success; features of self-esteem and interpersonal relationships</p> <p>Expected result To know: psychological and pedagogical basis for the readiness of elementary school students for school. To be able to: use knowledge in practice. Skills: work with children both individually and with a group. Competence: General professional: labor function 1.training Special: labor function 4.Research</p>
4	Pedagogy of primary school	5	Pedagogy	Internship pedagogical practice	<p>Aims of study of discipline: to acquaint future elementary school teachers with modern requirements for the process of organizing training, educational technologies used in the system of Russian education, to reveal the features of their content and methods; to form students' skills in using educational technologies in pedagogical practice.</p> <p>Short maintenance of discipline: The content of this discipline considers both the general fundamentals of pedagogy and issues related directly to the pedagogy of primary school: the age characteristics of children, the principles and rules of teaching younger students, types and forms of training and education, and the tasks facing a primary</p>

					<p>school teacher.</p> <p>Expected result</p> <p>To know: basic theories and technologies of training and education and use them in organizing the process of training and education</p> <p>To be able to: to rely on didactic laws and principles in the learning process; use the methods, techniques of training and education; use modern pedagogical technologies in training and education of students;</p> <p>Skills: generalization skills, analysis of theoretical and practical material; the skills of using various educational methods in working with primary school students.</p> <p>Competence: General professional: labor function 1.training Special: labor function 4. Research</p>
5	History of pedagogy	5	Pedagogy, etnopedagogy	Pre-diploma practice	<p>Aims of study of discipline: Acquaintance with the subject, Purposes, history of Stanovlenie and development of pedagogical science.</p> <p>Short maintenance of discipline: Development of upbringing, school and pedagogical thought in Kazakhstan, Russia and abroad.</p> <p>Expected result</p> <p>To know: the development of pedagogical science in different periods of its formation.</p> <p>To be able: to extract from the sources the information necessary to allocate the main thing, to critically assess the accuracy of the information.</p> <p>Skills: work with different information.</p> <p>Competence: General professional: labor function 1.training</p>
5	Formation of pedagogical science in Kazakhstan	5	Pedagogy, etnopedagogy	Pre-diploma practice	<p>Aims of study of discipline: Acquaintance with the history of formation and development of psycho-pedagogical science in Kazakhstan.</p> <p>Short maintenance of discipline: Main directing and development trends of modern pedagogical science in Kazakhstan. Development of pedagogy at various stages of development of Kazakhstan society</p> <p>Expected result</p> <p>To know: The history of the development of pedagogical science in Kazakhstan; State documents on education.</p> <p>To be able: To evaluate various events and phenomena in the history of the development of pedagogical science; Correctly use theoretical knowledge in the practice of modern educational institutions of practical activity.</p> <p>Skills: work with different information.</p> <p>Competence: General professional: labor function 1.training</p>

6	Theory and technology of art education	6	Pedagogical skills and methods of application of modern educational technologies	Internship pedagogical practice, Pre-diploma practice	<p>Aims of study of discipline: to Help students to master the skills of fine art.</p> <p>Short maintenance of discipline: Theory and technology, fine arts, history of the origin and development of art.</p> <p>Expected result</p> <p>To know the features of the lessons of fine arts in the elementary school.</p> <p>Be able to: apply obtained knowledge in practice.</p> <p>Skills: mastery of the fine art, perspectives and schedules.</p> <p>Competence: Special: labor function 3.methodical</p>
6	Theory and technology of production of visual aids	6	Pedagogical skills and methods of application of modern educational technologies	Internship pedagogical practice, Pre-diploma practice	<p>Aims of study of discipline: Help students master the skills of fine arts</p> <p>Short maintenance of discipline: Theory and technology of fine art, the history of the emergence and development of fine art.</p> <p>Expected result</p> <p>To know Technology for visual aids</p> <p>Be able to: Apply the acquired knowledge in practice.</p> <p>Skills: Skills in working with visual aids</p> <p>Competence: Special: labor function 3.methodical</p>
7	Theory and technology of education of labour	5	Pedagogical skills and methods of application of modern educational technologies	Internship pedagogical practice, Pre-diploma practice	<p>Aims of study of discipline: Acquaintance with technology of work.</p> <p>Short maintenance of discipline: This discipline introduces students to the concept of a small school, the conditions affecting the creation of these types of schools, their current state, the peculiarities of the educational process in a small school, methodological aspects of teaching and the content of the teacher's work in these schools.</p> <p>Expected result</p> <p>To know: features of the organization of classroom work in elementary school.</p> <p>Be able to: organize labor education.</p> <p>Skills: the organization of classroom work.</p> <p>Competence: Special: labor function 3.methodical</p>
7	Applique and plasticine	5	Pedagogical skills and methods of application of modern educational technologies	Internship pedagogical practice, Pre-diploma practice	<p>Aims of study of discipline: Information about the application, its types and methods of manufacturing</p> <p>Short maintenance of discipline: Information about the woven products from paper, the ability to create three-dimensional wickerwork.</p> <p>Expected result</p> <p>To know: Technology of work on application and plasticine.</p> <p>Be able to: Work with paper, clay and clay..</p> <p>Skills: The organization of work on application and plasticine with Students in practice..</p> <p>Competence: Special: labor function 3.methodical</p>

LIST OF ELECTIVE COURSES

Form of education: Full-time

Studying term: 4 years

	Subject	Subject code	number of credits	Semestr
GENERAL EDUCATIONAL DISCIPLINES				
1	Elective course 1			
	<i>Module of economic and legal knowledge</i>			
	Fundamentals of market economy and entrepreneurship	FMEES 1111	3	2
	Fundamentals of law and anti-corruption culture	FLACC 1112	2	2
	<i>Module of economic and legal knowledge</i>			
	Fundamentals of market economy and entrepreneurship	FMEES 1111	3	2
	Basics of safety and life and ecology	BSLE 1112	2	2
BASIC DISCIPLINES				
1	Elective course 1			
	1. Organization of studying and up growing work in small completed school	OSUGWSCS 2213	3	3
2. Organization of teaching and educational work in the first form	OTEFF 2213			
2	Elective course 2			
	1. Psychology of elementary school students	PESS 2214	6	3
2. Psychology of difficult students	PDS 2214			
3	Elective course 3			
	1. Psychological pedagogical diagnostics of elementary schools students	PPDESS 2215	6	3
2. Methods of scientific research in psychology	MSRP 2215			
4	Elective course 4			
	1. Self-knowledge and methods of teaching self-knowledge	SKMTSN 2216	5	4
2. Methods of active social and pedagogical education	MASPE 2216			
5	Elective course 5			
	1. Defectology	Def 2217	5	4
2. Bases of speech therapy	BST 2217			
6	Elective course 6			
	1. The content of the work of a primary school teacher with children with special educational needs	CWPSTChSEN 3218	6	5
2. Correctional pedagogy	CP 3218			
7	Elective course 7			
	1. Pedagogical psychology	PP 3219	5	3
2. Psychology of communication	PC 3219			
8	Elective course 8			
	1. Working with gifted children	WGCh 3220	5	5
2. Theory of person	TP 3220			
9	Elective course 9			
	1. Working with underachieving children	WUCh 3221	6	6
2. Deviantology	Dev 3221			
10	Elective course 10			
	1. Social pedagogy	SP 3222	6	6

	2. Self-determination and vocational guidance of students	SDVGS 3222		
11	Elective course 11			
	1. Etnopedagogy	Etn 3223	5	6
	2. Mediapedagogy	MP 3223		
12	Elective course 12			
	1. Family pedagogy	FP 4224	5	7
	2. Pedagogical consulting	PC 4224		
13	Elective course 13			
	1. Comparative pedagogy	CP 4225	5	7
	2. Pedagogy of primary education in foreign countries	PPEFC 4225		
14	Elective course 14			
	1. Primary school teacher's communicative culture	PSTCC 4226	5	7
	2. Communicative skills Training	CST 4226		
15	Elective course 15			
	1. Methods of scientific and pedagogical research	MSPR 4227	3	7
	2. Theory and technology of pedagogical design	TTPD 4227		
Profiling subjects				
1	Elective course 1			
	1. Theory and technology of studying writing skills	TTSWS 2307	3	4
	2. History of learning calligraphy	HLC 2307		
2	Elective course 2			
	1. Criteria-based assessment technology and methods of teaching literary reading	CBATMTLR 3308	4	5
	2. Children's literature	ChL 3308		
3	Elective course 3			
	1. The technology of criteria-based assessment and methods of teaching knowledge of the world	TCBAMTKW 3309	5	6
	2. Methods of teaching natural science	MTNS 3309		
4	Elective course 4			
	1. Psychological and pedagogical bases of teaching and upbringing of primary school children	PPBTUPSch 3310	5	6
	2. Pedagogy of primary school	PPS 3310		
5	Elective course 5			
	1. History of pedagogy	HP 4311	5	7
	2. Formation of pedagogical science in Kazakhstan	FPSK 4311		
6	Elective course 6			
	1. Theory and technology of teaching fine arts	TTTA 4312	5	8
	2. Theory and technology of visual AIDS	TTVA 4312		
7	Elective course 7			
	1. Theory and technology of training of work	TTTW 4309	5	8
	2. Applications and plastilinographaya	AP 4309
