## Summary of the sections of the MEP

### **1. Explanatory note**

The modular educational program (MEP) was compiled in accordance with the State Educational Standard approved by Order No. 604 of the Ministry of Education and Science of the Republic of Kazakhstan dated October 31, 2018, also on the basis of the provision «On the formation of the students' learning trajectory» P.01.04.2012. Structure of the modular educational program from 17.01.2014

The MEP is developed as a set and sequence of training modules for the entire period of study and is aimed at mastering the competencies necessary for awarding the academic Bachelor of Public Safety degree, according to the educational program 6B12330 – «Law Enforcement», the OOD block includes disciplines for all MEP specialties of education (total 56 credits), during the study of which the graduate must master the key competencies of general education and socio-ethical.

He DB block includes the disciplines of the university component (VC), which is 37 credits; and elective components (CV), which is 75 credits. Modules of these disciplines allow forming a complex of key (systematizing and socio-ethical) and special competencies acquired by the graduate.

The PD block includes the disciplines of the university component (VC), which is 23 credits; and the elective component (CV), which is 37 credits. Modules of these disciplines allow you to form a complex of key and special (production, management and research) competencies acquired by a graduate. In total, a student at the end of the MEP must master 240 credits.

The purpose of the training is to deepen professionally significant knowledge in the field of the future profession, expand the scope of skills and abilities in the specialty, including solving practical problems in substantive and procedural law and conducting an examination of regulatory documents; to form knowledge, skills and skills in the pre-trial investigation of a criminal case, operational and official activities of law enforcement agencies, judicial review of criminal, civil and administrative cases..

The educational mission of the educational program 6B12330 «Law Enforcement» is to train competitive personnel of higher and postgraduate education in a wide range of areas, focused on accelerated industrial and innovative development of the region. The vision is to meet the changing needs and expectations of society and all stakeholders.

When developing a modular educational program, the wishes and recommendations of the following employers were taken into account: the Prosecutor's office of Semey of the Prosecutor's Office of the East Kazakhstan Region, the UP of Semey DP of the East Kazakhstan Region, city courts No. 1, No. 2 of Semey of the East Kazakhstan Region, the institution of the penal enforcement system OV 156/14, 156/15, 156/16 CUIS DP of the East Kazakhstan Region, the scientific and production laboratory of forensic examination of Semey of the East Kazakhstan Region, the transport Prosecutor's office of Semey of the Main Transport Prosecutor's Office of the Republic of Kazakhstan, the military court of the Semey garrison of the Regional Command «East» of the East Kazakhstan Region, the military Prosecutor's Office of the Regional Command «East» of the East Kazakhstan Region, the Presidium of the Bar Association of the East Kazakhstan Region.

The field of activity of a graduate of the educational program 6B12330 «Law enforcement»: a specialist or a court secretary; a lawyer of akimat, maslikhat and enterprises with various forms of ownership; a lawyer-consultant in the legal departments of organizations, institutions, including in the EurAsEC countries; a lawyer in a law office or bar association; a notary in a notary office.

### **1. The graduate's competence model**

In modern conditions, the key resource of the country's economic growth is the intellectual and educational potential. In this regard, the system of training highly qualified personnel is becoming important in ensuring high competitiveness.

The competitiveness of a specialist is determined by his professional competence, broad social outlook, flexibility of behavior and a high level of individual activity. The competence-based approach in higher professional education opens up wide opportunities for better training of specialists for real life. The competence of the graduate is formed taking into account the needs and satisfaction of the labor market. In modern conditions of the labor market, there is an increasing need for competent legal specialists, as well as civil servants with a multilingual direction. The demand for practical skills and qualifications focused on entrepreneurial activity is increasing.

Graduate of the educational program 6B12330 «Law Enforcement» academic degree «Bachelor of Law» in the educational program 6B12330 «Law Enforcement».

In order to exercise their competitiveness and competence, a student under the educational program 6B12330 «Law Enforcement» receives in «Alikhan Bukeikhan University»:

- a) a certain necessary amount of basic (theoretical) knowledge;
- b) a set of methodologies and techniques for applying this knowledge in practice;
- c) a certain experience of such application (in the course of educational, industrial and pre-graduate practices, laboratory work, independent research, etc.).

All these separate elements of the results of education together constitute «competence».

**Competence** – comprehensive characterization of the graduate's readiness to apply knowledge, skills and personal qualities in standard and changing situations of professional activity.
